## SUMMARY

---

Backend developer, experience with many technologies and languages, strength core concepts, experience with cloud (AWS).

## PROFESSIONAL EXPERIENCE

---

Current Job

**Backend Software Developer**, ORB Music, Rio de Janeiro, Brazil

- Implemented efficient data models and optimized database queries, resulting in a 30% reduction in response time and improved overall system performance.
- Collaborated with cross-functional teams to design and develop RESTful APIs, enabling seamless integration with front-end applications and third-party services.
- Implemented robust caching mechanisms using Redis.
- Actively participated in code reviews, providing constructive feedback to ensure code quality and maintainability.
- Worked closely with DevOps teams to automate deployment processes, enabling continuous integration and deployment using tools like Docker and Jenkins.
- Collaborated with the product management team to understand and translate business requirements into technical solutions.
- Actively stayed updated with the latest trends and technologies in backend development, participating in conferences and workshops to enhance skills and knowledge.

May 2020 – Aug 2022

**Fullstack Software Developer**, Plin Condomínios, Rio de Janeiro, Brazil

- Designed and implemented RESTful APIs, integrating frontend and backend systems, resulting in seamless data flow and improved user experience.
  - Implemented responsive and user-friendly frontend interfaces using React, CSS, and HTML, resulting in a 20% improvement in user satisfaction and reduced bounce rates.
  - Integrated third-party APIs, such as payment gateways and social media platforms, expanding application functionality and enhancing user engagement.
  - Conducted code reviews and provided feedback to team members, ensuring code quality, best practices, and adherence to coding standards.
  - Collaborated with UX/UI designers to translate wireframes and mockups into fully functional features, ensuring a seamless and visually appealing user experience.
  - Worked closely with product managers and stakeholders to gather requirements, define project scope, and deliver high-quality software solutions on time and within budget.
-
